

**REMARKS**

The examiner has indicated that the applicant is required under 35 U.S.C. 121 to elect a single invention for prosecution on the merits from the following:

5

Invention I: Claims 6-14, drawn to a monitor, classified is class 312, subclass 7.2.

Invention II: Claims 1-5, drawn to a method of fabricating a monitor, classified in class 156, subclass 1733.

10 **Response:**

The applicant hereby elects **Invention I** for prosecution on the merits in response to the above restriction requirement. The claims readable on the elected Invention I are claims 6-14.

15

Claim 1 is amended in an effort to traverse the above restriction requirement. The limitation of "a plurality of combining pillars" of the back cover is added to claim 1 thereby clearly reciting a process of making only the claimed product/device. If the amendment to claim 1 is found to traverse the restriction requirement, the applicant requests that the restriction requirement be withdrawn and that claims 1-5 be rejoined.

20

No new matter is introduced in this Office action. Consideration of the merits of claims 6-14 and the amendment to claim 1 is requested.
